The Code to Facial Revitalisation

Thanks for requesting further information on Bente's latest masterclass with Dr Mauricio De Maio in London – Unlocking the Code to Facial Revitalisation.

A few weeks ago, Bente had the opportunity to attend an invite-only Master Class Injection training course with internationally respected plastic surgeon, Dr. Mauricio de Maio, known as one of the true artists in the field of aesthetic medicine. He essentially took Bente through a cosmetic boot-camp of sorts, where he randomly grilled the injectors in attendance on assessment skills, facial anatomy, and injection technique.

The training session began with a brief description of attendee credentials and what they hoped to gain from being there. Although initially somewhat intimidating, it didn't take long before it became apparent that Dr. de Maio cared very little about title, but placed immense value on ability.

After Dr. de Maio brilliantly explained the process of assessing the face for correct, natural-looking volume enhancement, he placed patients and injectors opposite one another in an assembly line fashion. The attendees were then asked to do a one minute assessment of each patient and prioritise what the patient needed aesthetically in order of biggest difference generated.

This training is just one example of the many, high level training courses that Bente and her team participate in multiple times a year with the aim of possessing the expertise and knowledge to provide the best possible outcome when you receive a treatment. If you would like to discuss this further please arrange an appointment with Bente. Many thanks for your interest.
